B-2 BIDDER'S QUALIFICATION REQUIREMENTS AND PROCEDURES

Each Bidder and each subcontractor whose field or area is governed by Chapter 399, 455, 489 or 633 of the Florida Statutes for licensure must hold a valid current license as required by the Statute. If the Bidder is a corporation, he must also be properly registered with the State of Florida, Department of State, Division of Corporations.

Bidder qualification requirements and procedures are established by Department rule (Rule 60D-5, Florida Administrative Code) and by the bidding conditions and Specifications. Failure of the Bidder to strictly meet and follow all such requirements and procedures may result in bid rejection or disqualification for contract award. For the Bidder's convenience, the provisions of Rule 60D-5.004 Bidder's Qualification Requirements and Procedures are set forth below.

60D-5-004 Bidder's Qualification Requirements and Procedures.

There are two steps in qualifying to perform construction of State projects: A.) Prequalification to submit a bid, and B.) Prequalification for award of the contract. However, the submission date of qualifications may change dependent upon the complexity of a project, funding time constraints or availability of personnel to perform qualification review and approval procedures. Contractor should verify at the Pre-Bid meeting the exact prequalification requirements and submission due dates.

Pre-qualifications with one agency will not automatically prequalify the contractor with other agencies. Pre-qualifications, unless otherwise stated in writing, shall be submitted on each project advertised by the Department. Qualification documents are not held on file for other projects.

A. Prequalification to submit a bid.

1. Prequalification requirements apply to all Bidders on Levels Four and Five contracts. Bidders must provide this information during the bidding of a specific project, unless otherwise advertised.

- a. Current State Contractor license certification or registration as required under Florida Statutes.
- b. Current Corporate Charter registration, if the potential Bidder is a domestic (Florida) corporation, or authority to transact business if the potential Bidder is a foreign (non-Florida) corporation, as may be required by Florida law.
- c. For projects that require (based on Agency discretion) a contractor with specific expertise and experience, the Agency may state additional prequalification requirements.
- d. A completed FNG 5085 Contractor Questionnaire. (See Exhibit 3)
- e. Proof of registration in www.myfloridamarketplace.com web site.

2. For projects that require a contractor with specific expertise and experience, the Agency may state additional prequalification requirements relating to demonstrated performance of similar work of similar size and complexity and the possession or availability of facilities or equipment needed for performance of the work in addition to prequalification requirements in accordance with conditions that will be established in the bidding documents.

3. In each instance where the bid documents set forth certain additional prequalification requirements each potential Bidder shall submit these prequalification data to the Agency as provided in the bid documents. The conditions may include a deadline date for submittal of additional prequalification data, which date will be earlier than the deadline for submission of bids. Bids are to be accepted only from those potential Bidders who have pre-qualified in accordance with this section and the terms of the bidding documents.

4. Each potential Bidder will be notified by the Agency to which it applied for prequalification of ineligibility to submit bids during the balance of the qualification period for a specific field or area of construction. A firm will be permitted to correct prequalification deficiencies if proof of correction is received 120 hours prior to the bid opening date and time. Any Bidder or potential Bidder that is determined to be ineligible because of failure to provide evidence of the minimum requirements will not be qualified to submit a bid and will be informed in writing of the deficiencies that must be corrected to be considered for future projects.

Each potential Bidder notified of its eligibility may submit a bid at the time and place designated in the bidding documents as

long as the Bidder is qualified and eligible to perform the work required by the bidding documents.

B. Pre-qualifications for award of the contract

1. Requirements: Any Bidder that has submitted a bid on Levels Four and Five contracts must satisfy the following requirements as judged by the Agency in order to be eligible for award of the contract for construction.

- a. Satisfactory compliance with bid pre-qualification criteria.
- b. On projects where the bid total exceeds \$100,000, the Bidder must provide with the bid, a good faith deposit in the amount of 5% of the bid by way of a bid bond from a surety insurer authorized to do business in this State as surety or a certified check accompanying the bid, such requirement may be satisfied by the Bidder depositing in lieu of such certified check, a cashier's check, treasurer's check or bank draft of any national or state bank.
- c. On projects where the bid exceeds \$100,000, unless such requirement has been waived in accordance with Rule 60D-5.0041, the Bidder must provide with the bid, evidence of ability to provide the necessary performance and payment bonds for the project by providing a letter of intent to provide a 100% performance bond and a 100% labor and material payment bond from a surety company authorized to do business in the State of Florida by the Department of Insurance, and meeting the financial and performance rating required by the bidding documents. For contract amounts not exceeding \$500,000 the provisions of Section 287.0935 F.S. shall govern.
- d. Supervisor - On Level 5 projects, the Contractor must agree to provide field (on-site) supervision (through a named superintendent) for each of the general, concrete forming and placement, masonry, mechanical, plumbing, electrical and roofing trades. In addition, the Contractor shall assign and name a qualified employee to provide scheduling direction to the entire project. Supervisory employees (including field superintendents, foremen and schedulers at all levels) must have been employed in a supervisory (leadership) capacity of a substantially equivalent level on a similar project for at least two years within the last five years. The Contractor shall include a resume of experience for each of those employees identified by him to supervise each trade, and for scheduling, with its submittal of the experience questionnaire (item d above).
- e. Specific expertise and experience a contractor's staff must have to perform a project requiring unique or specialized capabilities.

2. The Agency will evaluate all data submitted within fourteen days of receipt and determine whether the firm is a qualified Bidder. Should the Bidder be judged unqualified, its bid will be rejected and the Bidder submitting the next low responsive bid will be given seven (7) working days to submit its qualification data. Additional qualification data may be requested.

B-3 FAMILIARITY WITH LAWS

The Bidder is required to be familiar with all Federal, State and local laws, ordinances, rules and regulations that in any manner affect the work. Ignorance on the part of the Bidder will in no way relieve him from responsibility.

B-4 FLORIDA PRODUCTS AND LABOR

The Contractor's attention is called to Section 255.04, Florida Statutes, which requires that on public building contracts Florida products and labor shall be used wherever price and quality are equal.

B-5 TAXES

Although the Owner is not subject to the Florida Sales and Use Tax, any Contractor who purchases materials and services, which will be used in the construction of State-owned buildings, will not be exempt from the tax on these materials and services as evidenced by the following excerpt from the Florida Statutes:

"The State, any county, municipality or political subdivision of this State is exempt from the sales tax, except this exemption shall not include sales of tangible personal property made to contractors employed either directly or as agents of any such government or political subdivision thereof when such tangible personal property goes into or becomes a part of public works owned by such government or political subdivision thereof."

The Owner is not subject to:

- A. Federal Excise Taxes on materials or appliances that are incorporated into and become a part of the completed improvement.

B. Federal Tax on Transportation of Property.

In every case of a purchase of materials to be incorporated in the work, which are subject to Federal Excise Tax, the Owner will furnish to the Contractor the necessary Federal Excise Tax Exemption Certificate upon receipt of a copy of the supplier's invoice showing the item or items, the net price, and Federal Excise Tax separately.

The Bidder shall take these factors into consideration in preparing his proposal, including therein the cost of the State Sales Tax and Use Tax on materials, but excluding the cost of those taxes not applicable.

B-6 ALTERNATES

If the Owner wishes to learn the relative or additional construction cost of an alternative method of construction, an alternative use or type of material or an increase or decrease in scope of the project, these items will be defined as alternates and will be specifically described by the contract documents. Alternates will be listed in the Proposal form in a manner that the Bidder shall be able to clearly indicate what sums he will add to (or deduct from) his Base Bid.

B-7 ADDENDA

In case the Architect-Engineer finds it expedient to supplement, modify or interpret any portion of the Bidding Documents during the bidding period, such procedure will be accomplished by the issuance of written Addenda to the Bidding Documents. Addenda shall be made available to all prospective Bidders. It is the Bidders responsibility to ensure receipt of all issued addenda before bid due date. Failure to acknowledge addenda on the Exhibit 4 proposal form may be cause for rejection.

B-8 INTERPRETATION OF BIDDING DOCUMENTS

No interpretation of the meaning of the Drawings, Specifications or other Bidding Documents and no correction of any apparent ambiguity, inconsistency or error therein will be made to any Bidder orally. Every request for such interpretation or correction shall be in writing, and addressed to the Architect-Engineer (or the contact indicated in the bidding documents). All such interpretations and supplemental instruction will be in the form of written Addenda to the Bidding Documents, sent via E-Mail by the Architect-Engineer or posted on the VBS by a Contract Management Branch Official.

Only the interpretation or correction so given by the Architect-Engineer (or Owner appointed expert) in writing shall be binding, and prospective Bidders are advised that no other source is authorized to give information concerning, or to explain or interpret, the Bidding Documents. The DMA will not be responsible for information obtained through sources other than those used by the DMA for solicitations (Vendor Bid System or Florida Administrative Register) that may cause rejection of bids.

B-9 EXAMINATION OF BIDDING DOCUMENTS AND SITE OF WORK

Bidders are required, before submitting their proposals, to visit the site of the proposed work and completely familiarize themselves with the nature and extent of the work and any local conditions that may in any manner affect the work to be performed and the equipment, materials and labor required. They are also required to examine carefully any Drawings, Specifications and other Bidding Documents to inform themselves thoroughly regarding any and all conditions and requirements that may in any manner affect the work. Only those contractors listed on the pre-bid /site visit meeting sign-in roster will be allowed to bid.

B-10 BASIS FOR BIDDING - TRADE NAMES

For clarity of description and as a standard of comparison, certain equipment, materials, etc., have been specified by at least two trade names or manufacturers. To ensure a uniform basis for bidding, the Bidder shall base his Proposal on the particular system, equipment or material specified. After the contract is let, other equipment materials, etc., as manufactured by other manufacturers may be accepted only if, in the opinion of the Architect-Engineer, same is equivalent in quality and workmanship and will perform its intended purpose satisfactorily.

B-11 BID GUARANTEE

On projects where the base bid and sum of all additive alternates exceeds \$100,000, bids shall be accompanied by a bid guarantee of not less than five (5) percent of the amount of the bid, which may be a certified check, a cashier's check, treasurer's

check, bank draft or Bid Bond made payable to the Owner. If a bid bond is submitted, it must be signed by a Florida Licensed Resident Agent who holds a current Power of Attorney from the Surety Company issuing the Bond and the Power of Attorney must be attached to the Bid Bond. Such check or Bid Bond shall be submitted with the understanding that it shall guarantee that the Bidder will not withdraw his bid for a period of forty (40) days after the scheduled closing time for the receipt of bids; that if his bid is accepted, he will enter into a written contract with the Owner in accordance with the form of agreement included as a part of the Contract Documents, and that the required Performance Bond and Labor and Material Payment Bond will be given; and that in the event of the withdrawal of said bond within said period, or failure to enter into said Agreement and give said bonds within ten (10) calendar days after he has received notice of acceptance of his bid, the Bidder shall be liable to the Owner for the full amount of the bid guarantee as representing the damage to the Owner on account of the default of the Bidder in any particular hereof. The Bid Bonds or checks shall be returned to all except the apparent lowest two qualified Bidders after the formal opening of bids. The remaining Bid Bonds or checks will be returned to the two lowest Bidders after the Owner and the accepted Bidder have executed the Agreement and the Performance Bond and Labor and Material Payment Bond have been approved by the Owner. If the required Agreement and Bonds have not been executed within forty (40) calendar days after the date of the opening of the bids, then the Bid Bond or check of any Bidder will be returned upon his request, provided he has not been notified of the acceptance of his bid prior to the date of such request.

B-12 SURETY COMPANIES ACCEPTABLE TO STATE

To be acceptable to the State as Surety for Bid Bonds, Performance Bonds and Labor and Material Payment Bonds, a Surety Company shall comply with the following provisions:

- A. The Surety Company shall have a currently valid Certificate of Authority, issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.

- D. The Surety Company shall have at least twice the minimum surplus and capital required by the Florida Insurance Code at the time the invitation to bid is issued.

Each bid must give the full business name, federal ID number, address, telephone and fax of the Bidder and state whether it is an individual, corporation or partnership. The bid must be signed before submitting in duplicate in a sealed envelope. The envelope must be clearly marked on its face as follows:

ATTN: SEALED BID - PROJECT NUMBER: 214001
PROJECT NAME: NTC ORLANDO FENCE – FORCE PROTECTION
ATTN: CFMO Contract Management Branch

The bid shall be submitted only prior to the time and the place specified in the Invitation to Bid or in accordance with any Addendum issued subsequent to the advertisement. Sealed bid envelopes submitted by mail or by delivery service must be delivered within a separate mail or delivery envelope, also marked "SEALED BID". Bids not delivered in sealed envelopes may be returned to the Bidder. All bids submitted by mail or delivery service need to be confirmed by Bidder with the CFMO Contract Management Branch.

B-14 LISTING OF SUBCONTRACTORS

In order that the Owner may be assured that only qualified and competent subcontractors will be employed on the project, each Bidder shall submit in duplicate with his proposal a list of the subcontractors who will perform the work for each Division of the Specifications utilizing the "List of Subcontractors" form enclosed as Exhibit 5. The Bidder shall have determined to his own complete satisfaction that a listed subcontractor has been successfully engaged in this particular type of business for a reasonable length of time, has successfully completed installations comparable to that which is required by this Agreement and is qualified technically and financially to perform the work for which he is listed. Only one subcontractor shall be listed for each phase of work.

Any Bidder who lists a subcontractor not certified and/or registered by the State to perform the work of his trade if, such certification or registration is required for the trade, by Florida Laws, will be rejected as non-responsive.

No change shall be made in the List of Subcontractors, before or after the award of a contract, unless agreed to in writing by the Owner.

B-15 WITHDRAWAL OF BIDS

B-16 RECEIPT AND OPENING OF BIDS

Bids will be opened publicly at the time and place stated in the Bidding Documents. An official time clock will be used to monitor the closing of the bids and to time-stamp bids as received. No responsibility will be attached to any officer for the premature opening of a bid not properly addressed and identified. At the time fixed for the opening of bids, the bids will be read aloud.

B-17 DISQUALIFICATION OF BIDS

More than one bid from an individual, firm, partnership, corporation or association under the same or different names will not be considered. Reasonable grounds for believing that a Bidder is interested in more than one proposal for the same work will cause the rejection of all proposals in which such Bidders are believed to be interested.

Any or all proposals will be rejected if there is reason to believe that collusion exists among the Bidders and no participants in such collusion will be considered in future proposals for the same work.

The Owner reserves the right to accept or reject any or all proposals received and reserves the right to make an award with or without further discussion of the proposals submitted or accept minor informalities or irregularities in the best interest of the State of Florida, which are considered a matter of form and not substance, and the correction or waiver of which is not prejudicial to other proposers. Minor irregularities are defined as those that will not have an adverse effect on the Department's interest and will not affect the price of the proposal by giving a proposer an advantage or benefit not enjoyed by all other proposers. It is understood the proposal will become a part of the Department's official file, without obligation to the Department. Proposals may be rejected if found to be irregular or not in conformance with the requirements and instructions contained herein. A proposal may be found to be irregular or non-responsive by reasons that include, but are not limited to failure to utilize or complete in their entirety prescribed forms, conditional proposals, incomplete proposals, ambiguous proposals, and improper, missing and/or undated signatures. Bids not complete with Bid Bonds, (when applicable), List of Subcontractors, or addenda not acknowledged will not be read aloud. The Official announces the deficiency causing the bid to be non-responsive and its disqualification thereby. The disqualified proposal will be impounded and not returned.

Falsification of any entry made on the contractor's bid proposal will be deemed a material bid deviation and will be grounds for rejection.

Any and all bid proposals may be rejected if determined to be non-responsive (does not conform in all material aspects to the invitation to bid or request for proposals) or non-responsible (firm is not deemed capable in all respects to perform fully the contract requirements and the integrity and reliability to assure good faith performance).

B-18 REJECTION OF BIDS

The Owner reserves the right to reject any and all bids under any of the circumstances prescribed in Rule 60D-5.0071, Florida Administrative Code, and to negotiate the contract in accordance with Rules 60D-5.00, 60D-5.0082, and 60D-5.0091, Florida Administrative Code, if the low qualified bid exceeds the project construction budget.

B-19 NOTICE AND PROTEST PROCEDURES

A. Notification:

1. Bid Solicitation: The Owner shall provide notice of its decision or intended decision concerning a bid solicitation as provided in the advertising for bids and distribution of bidding documents.
2. Contract Award: On contracts within Levels 2, 3, 4 & 5, the notice of a decision or intended decision on contract award or bid rejection shall be given by posting electronically on the My Florida Market Place (MFMP) Vendor Bid System (VBS), or by posting in the same manner in which the bid solicitation was announced by the Contract Management Branch of the DMA.

B. Protest:

1. Any person who is affected adversely by the Owner's decision or intended decision shall file with the Owner a notice of protest in writing within 72 hours, excluding Saturday, Sunday and State legal holidays, after receipt of the bidding documents if the protest is directed toward the bidding documents or after the notice of the Owner's decision or intended decision on contract award or bid rejection if the protest is directed toward contract award or bid rejection.
2. Thereafter a formal written protest by petition in compliance with Section 120.57(3), Florida Statutes, and Rule 28-110, Florida Administrative Code, must be filed with the Owner within ten (10) days after the date the notice of protest was filed.
3. Failure to file a timely notice of protest or failure to file a timely formal written protest petition shall constitute a waiver of protest proceedings. Any protest filed prior to posting of the bid tabulation or receipt of the notice of the agency decision or intended decision will be considered abandoned unless renewed within the time limit provided for protests.
4. The Agency and the Commission on Minority Economic and Business Development is hereby granted standing to protest, pursuant to s. 287.0945, in a timely manner, any contract award in competitive bidding for contractual services and construction contracts that fail to include minority business enterprise participation, if any responding Bidder has demonstrated the ability to achieve any level of participation, or any contract award for commodities where, a reasonable and economical opportunity to reserve a contract statewide or district level, for minority participation was not executed or, and agency failed to adopt applicable preference for minority participation. Any low Bidder with no participation may be presumed not in "good faith." All Bidders will be notified of the minority participation goal by addendum.

C. Owner Action:

1. Upon receipt of a notice of protest that has been timely filed, the Owner shall delay the contract award process until the subject of the protest is resolved by mutual agreement between the parties or by final Owner action, unless the Owner sets forth in writing particular facts and circumstances which require the continuation of the bid solicitation process or the contract award process without delay to avoid an immediate and serious danger to public health, safety, or welfare; provided, however, that if the petition is not filed within the time stated above, the contract award process may continue as if the notice of protest had not been filed.
2. Upon receipt of the formal written protest petition which has been timely filed, the Owner shall attempt to resolve the protest by mutual agreement between the parties within 7 days, excluding Saturday, Sunday and legal State holidays.
3. If the protest is not resolved by mutual agreement within said seven (7) days, and if no disputed issue of material fact is involved, the Owner may designate a Hearing Officer who shall conduct an informal proceeding pursuant to Section 120.57(2), Florida Statutes, and Rule 60Q-2.014, Florida Administrative Code. The qualifications of such designated Hearing Officer shall be: 1 a member in good standing of The Florida Bar; or 2. a person knowledgeable by virtue of practical experience of the procedures relating to soliciting and evaluating bids for state contracts. Notice of informal proceedings shall be given no less than three days prior to the proceeding. The proceeding may be held before the Owner.
4. If there is a disputed issue of material fact, the protest shall be referred to the Division of Administrative Hearings of Department of Administration, State of Florida, for proceedings under section 120.57(1).

B-20 DETERMINATION OF SUCCESSFUL BIDDER

- A. All projects except where competitive bidding is waived under the provisions of Rule 60D-5.008, Florida Administrative Code, will be publicly bid in accordance with the provisions herein. Award of contract will be made to the lowest responsive responsible Bidder, determined in accordance with the provisions herein and meeting the requirements of the bidding documents, that submits the lowest valid bid for the work. The lowest bid will be determined as follows:
 1. The lowest bid will be the bid from the responsive responsible Bidder that has submitted the lowest price for the base bid or the base bid plus the additive alternates or less the deductive alternates chosen by the Agency to be included in or excluded from the proposed contract, taken in numerical order listed in the bid documents. The order of the alternates may be selected by the Agency in any sequence so long as such acceptance out of order does not alter the designation of the low Bidder.
 2. On projects whose bidding documents provide for evaluation of the bids based on first cost and life cycle cost and performance criteria, the lowest bid will be the bid by the firm whose bid products are determined to yield the lowest total cost in accordance with the criteria set forth in the bidding documents.

B-21 NOTICE TO SECURE PERMITS AND PAY FOR UTILITY CONNECTIONS; SCHEDULE OF VALUES; NOTICE TO PROCEED TO MOBILIZE ON SITE AND TO PROCEED WITH CONSTRUCTION; TIME OF COMPLETION AND LIQUIDATED DAMAGES

A. The contract will be issued to the Contractor after all signatures have been acquired. At that time, the Contractor will be given a Notice to Secure Permits for required permits from all agencies with jurisdiction over the area in which the project is located; and to pay, at the Contractor's cost, the required connection fees from all agencies supplying utilities to the project.

The Contractor is allowed thirty (30) calendar days from the issuance of the Notice to Secure Permits to obtain the required permits and utility connections before construction can begin. Special permits, such as tree removal, Water Management District, Department of Environmental Regulation, septic tank, etc., may be necessary before construction can begin. If additional time is required, the Contractor will request approval of a time extension for good cause for the purpose of obtaining any permit required prior to commencing construction on the site.

The Contractor is obligated to obtain and pay for a building permit from the local authority for construction of this facility. In the case of plumbing, electrical, other internal system permits and connection permits, the Contractor is obligated to obtain such permits and pay such fees.

The Contractor shall determine the permits and fees required by any entity having jurisdiction over any part of the project and shall include the cost of all such permits in his bid proposal.

- B. The Contractor shall, within ten (10) calendar days from date of Notice to Secure Permits letter, submit to the Architect-Engineer and Project Manager, for review and approval, three copies of a Schedule of Contract Values which will reflect

the estimated cost of each subdivision of work of each specification section, further detailed by subcontractor item, and utilizing the Construction Specification's Institute "Master Format Broad Scope Section Numbers". The value of each item shall include a true proportionate amount of the Contractor's overhead and profit. The sum of all such scheduled values shall equal the Contract Sum as evidenced by the Agreement.

- C. Upon paying for all required utility connections (not limited to but including telephone, data, electric, water and sewer) and securing the Building Permit, the Contractor shall provide a copy of any and all Permits required and receipts showing payments to the Architect-Engineer and the Owner. The Notice to Proceed to Mobilize on Site and to Proceed with Construction will then be issued by the Owner. The work to be performed under this contract shall be commenced within ten (10) calendar days after date of Notice to Proceed to Mobilize on Site and to Proceed with Construction, shall be substantially completed within (150) calendar days after the date of this Notice to Proceed, and shall be finally completed within (180) calendar days after the date of substantial completion. It is the Contractor's responsibility to ensure the Certificate of Occupancy from the authority having jurisdiction is provided to Owner prior to substantial completion.
- D. Inasmuch as failure to complete the project within the time fixed above will result in substantial injury to the Owner, and as damages arising from such failure cannot be calculated with any degree of certainty, it is hereby agreed that if the project is not substantially completed, according to the definition of "Substantial Completion" in Section B-1 hereinabove, or within such further time, if any, as in accordance with the provisions of the Contract Documents shall be allowed for such substantial completion, the Contractor shall pay to Owner as liquidated damages for such delay, and not as a penalty, any and all actual costs and/or losses incurred by the Owner, as the result of the delay, for each and every calendar day elapsing between the date fixed for substantial completion above and the date such substantial completion shall have been fully accomplished. Said liquidated damages shall be payable in addition to any other excess expenses or costs payable by the Contractor to the Owner under the provisions of AIA Article 14 of the General Conditions, and shall not exclude the recovery of damages by the Owner under other provisions of the Contract Documents, except for Contractor's delay. This provision of liquidated damages for delay shall in no manner affect the Owner's right to terminate the contract as provided in Article 14 of the General Conditions or elsewhere in the Contract Documents. The Owner's exercise of the right to terminate shall not release the Contractor from his obligation to pay said liquidated damages in the amounts as provided for above.

The Owner is entitled to completion of the project within the time fixed above or within such further time, if any, as may be allowed in accordance with the provisions of the contract. In the event of termination of the contract by the Owner prior to completion as provided in Article 14.2 of the General Conditions or elsewhere in the Contract Documents, the Contractor shall be liable to the Owner for the expenses for additional managerial and administrative services provided in said Article 14 and also for the per diem liquidated damages as agreed to above.

1. For each day he is in arrears in his work at the time of said termination as determined by the Architect-Engineer, and
2. For each day of thirty (30) additional calendar days hereby stipulated and agreed to be the time it will require the Owner to affect another contract for completion of the project and for resumption of work thereon.

Provided, however, that the sum of 1 and 2 above shall not exceed the number of days beyond the original agreed completion date, or any extension thereof as herein provided, reasonably required for completion of the project.

It is further agreed that the Owner may deduct from the balance retained by the Owner, under the provisions above, the liquidated damages stipulated therein for delay or termination, as the case may be, or such portions thereof as the said retained balance will cover.

B-22 APPRENTICES

If the Contractor employs apprentices on the project, the behavior of the Contractor and the Owner shall be governed by the provisions of Chapter 446, Florida Statutes, and by applicable standards and policies governing apprentice programs and agreements established by the Division of Workforce Development of the Department of Education, State of Florida. The Contractor will include a provision similar to the foregoing sentence in each subcontract.

At least once each month, the Architect-Engineer will determine whether the construction schedule developed and submitted by the Contractor meets the requirements stated above and whether the progress of the work complies with the Contractor's schedule. The Contractor shall provide an up-dated schedule with each request for partial payment. Failure of the Contractor to develop and submit a construction schedule as aforesaid shall be sufficient grounds for the Architect-Engineer to find the Contractor in substantial default and certify to the Owner that sufficient cause exists to terminate the contract or to withhold any payment.

Following development and submittal of the construction schedule as aforesaid, the Contractor shall, at the end of each calendar month occurring thereafter during the period of time required to finally complete the subject project, or at such earlier intervals as circumstances may require, update and/or revise the construction schedule to show the actual progress of the work performed and the occurrence of all events which have affected the progress of performance of the work already performed or will affect the progress of performance of the work yet to be performed in contrast with the planned progress of performance of such work, as depicted on the original construction schedule and all updates and/or revisions thereto as reflected in the updated and/or revised construction schedule last submitted prior to submittal of each such monthly update and revision. Each such update and/or revision to the construction schedule shall be submitted to the Architect-Engineer in duplicate. Failure of the Contractor to update, revise and submit the Construction Schedule as aforesaid shall be sufficient grounds for the Architect-Engineer to find the Contractor in substantial default and certify to the Owner that sufficient cause exists to terminate the Contract or to withhold payment to the Contractor until a schedule or schedule update acceptable to the Architect-Engineer is submitted.

The Contractor shall have the option of scheduling a substantial completion date occurring earlier than the date established by the Contract Documents for substantial completion; provided, however, in such event, such earlier substantial completion date

will be recognized by the Owner only as a matter of convenience to the Contractor and shall not change the date for substantial completion established by the Contract Documents or be otherwise binding on the Owner or anyone under the Owner's control; and provided further, however, in such event, should events occur during performance of the work necessary to complete the subject project which would justify the granting to the Contractor of an extension of the Contract Time pursuant to the provisions of Article 8 of the AIA General Conditions which form a part of the Contract Documents, the Contractor shall be entitled to receive only such an extension of Contract Time as is determined by the Architect-Engineer to be due the Contractor as follows:

- (1) In the event the currently approved Contractor's schedule indicates completion ahead of the contractually established date for substantial completion, the time extension to the contract shall only be determined, when the total time directly affecting the critical path of the schedule is added to the end date of the schedule thereby making a new end date beyond the contractual completion date. The time extension will only be for the time between the currently approved contractual completion date and the new schedule end date.
- (2) In the event the currently approved Contractor's schedule indicates completion at or after the contractually established date for substantial completion, the time extension shall only be added to the contractually established date for the substantial completion and shall be determined by the Architect-Engineer as the portion of delay time directly affecting the critical path of the current approved contract schedule.

C-5 CONSTRUCTION SCHEDULE AND REQUIREMENTS FOR OVERTIME WORK FOR PROJECTS WITH CONSTRUCTION COSTS IN EXCESS OF \$2,000,000.00

Within thirty (30) days after the date of the Owner's issuance of a Notice to Proceed, the Contractor shall prepare and submit to the Architect-Engineer a construction schedule in quadruplicate graphically depicting the activities contemplated to occur as a necessary incident to performance of the work required to complete the project, showing the sequence in which the Contractor proposes for each such activity to occur and the duration (dates of commencement and completion, respectively) of each such activity. An example of an acceptable form of such a construction schedule is contained in Appendix A of the Corps of Engineers' Regulation ER 1-1-11 entitled "Network Analysis System", a copy of which is available to the Contractor from the Architect/Engineer, upon request. Other forms of construction schedules, such as "Timeline", "Primavera", "Project Workbench", or "Super Project", which provide the same kind of information and employ the same basic principles as illustrated in Appendix A of the Corps of Engineers' Regulation ER 1-1-11 will be acceptable to the Owner if used by the Contractor; provided, however, that the Architect-Engineer shall determine whether the construction schedule developed and submitted by the Contractor meets the requirements stated above and such determination shall be binding on the Contractor. Failure of the Contractor to develop and submit a construction schedule as aforesaid shall be sufficient grounds for the Architect-Engineer to find the Contractor in substantial default and certify to the Owner that sufficient cause exists to terminate the contract or to withhold any payment.

Following development and submittal of the construction schedule as aforesaid, the Contractor shall, at the end of each calendar month occurring thereafter during the period of time required to finally complete the subject project, or at such earlier intervals as circumstances may require, update and/or revise the construction schedule to show the actual progress of the work performed and the occurrence of all events which have affected the progress of performance of the work already performed or will affect the progress of the performance of the work yet to be performed in contrast with the planned progress of performance of such work, as depicted on the original construction schedule and all updates and/or revisions thereto as reflected in the updated and/or revised construction schedule last submitted prior to submittal of each such monthly update and revision. Each such update and/or revision to the construction schedule shall be submitted to the Architect/Engineer in duplicate. Failure of the Contractor to update, revise, and submit the construction schedule as aforesaid shall be sufficient grounds for the Architect-Engineer to find the Contractor in substantial default and certify to the Owner that sufficient cause exists to terminate the Contract or to withhold payment to the Contractor until a schedule or schedule update acceptable to the Architect-Engineer is submitted.

The Contractor shall have the option of scheduling a substantial completion date occurring earlier than the date established by the Contract Documents for substantial completion; provided, however, in such event, such earlier substantial completion date will be recognized by the Owner only as a matter of convenience to the Contractor and shall not change the date for substantial completion established by the Contract Documents or be otherwise binding on the Owner or anyone under the Owner's control; and provided further, however, in such event, should events occur during performance of the work necessary to complete the subject project which would justify the granting to the Contractor of an extension of the contract time pursuant to the provisions of Article 8 of the AIA General Conditions which form a part of the Contract Documents, the Contractor shall be entitled to receive only such an extension of contract time as is determined by the Architect-Engineer to be due the Contractor as follows:

- (1) In the event the currently approved Contractor's schedule indicates completion ahead of the contractually established date for substantial completion, the time extension to the contract shall only be determined, when the total time directly affecting the critical path of the schedule is added to the end date of the schedule thereby making a new end date

beyond the contractual completion date. The time extension will only be or the time between the currently approved contractual completion date and the new schedule end date.

- (2) In the event the currently approved contractor's schedule indicates completion at or after the contractually established date for substantial completion, the time extension shall only be added to the contractually established date for substantial completion and shall be determined by the Architect-Engineer as the portion of delay time directly affecting the critical path of the current approved contract schedule.

C-6 VERIFICATION OF OWNER'S SURVEY DATA

Prior to commencing any excavation or grading, the Contractor shall satisfy himself as to the accuracy of all survey data as indicated in these plans and specifications and/or as provided by the Owner. Should the Contractor discover any inaccuracies, errors, or omissions in the survey data, he shall immediately notify the Architect-Engineer in order that proper adjustments can be anticipated and ordered. **Commencement by the Contractor of any excavation or grading shall be held as an acceptance of the survey data by him after which time the Contractor has no claim against the Owner resulting from alleged errors, omissions or inaccuracies of the said survey data.**

The Architect-Engineer will also provide all CAD files necessary for completing As-Built drawings once the contract time has reached sixty (60) days prior to substantial completion of the project as indicated on the Notice To Proceed (plus any additional days granted by formal Change Order). The Contractor shall make no deviation from the approved drawings, and the changes made thereto by the Architect-Engineer, if any.

It shall be the responsibility of the Contractor to properly schedule the submission of shop drawings for approval to allow adequate time for checking of drawings, manufacture and shipment of items to job site in sufficient time to prevent delay in Progress Schedule.

It shall also be the responsibility of the Contractor to coordinate the preparation of shop drawings of items, which will be furnished by more than one manufacturer but are designed to interface when installed. Shop drawings submitted to the Architect-Engineer for his approval shall first be checked and approved by the Contractor, the prima facie evidence of which shall be a "checked" stamp marked "Approved", or "Approved as Noted" on each copy of each shop drawing, placed thereon by the Contractor. Shop drawings received without the Contractor's "checked" stamp will be cause for immediate return without further

action. Each drawing correctly submitted will be checked by the Architect-Engineer and marked by him in one of the following ways:

- (1) Approved as drawn.
- (2) Approved as noted.
- (3) Returned for correction.
- (4) Not approved.

Submission and Approval of Shop Drawing & Sample Schedule

If and when required by the Architect-Engineer, the Contractor shall prepare and submit in triplicate to the Architect-Engineer a

completely itemized Schedule of Shop Drawings, brochures and other descriptive literature, listing each and all such items as required under these specifications, which schedule shall indicate for each required item:

- (1) Identification as to pertinent Specification Division.
- (2) Item(s) involved.
- (3) Name of pertinent subcontractor or supplier and the name of pertinent manufacturer.
- (4) Schedule date of delivery of pertinent items to the project.

The subcontractors for all phases of the Contract shall submit through the General Contractor complete brochures covering all materials and/or equipment proposed for use in the execution of the work as required by their respective Divisions of the Specifications. These brochures shall be indexed and properly cross referenced to the plans and specifications for easy identification.

All shop drawings, setting drawings, material brochures, samples and/or color selection materials, which are required and are not included in the foregoing shall be submitted via the General Contractor. Insofar as is possible or practical, all shop drawings or descriptive literature of equipment for the mechanical or electrical trades shall be submitted in a complete brochure for each trade as soon as possible after Notice to Proceed is executed.

The Owner will not grant time extension based on delays due to improper scheduling of work; and the Owner, at his discretion, may withhold progress payments until such time as these requirements are fully satisfied.

C-12 REFERENCE TO A.S.T.M. OR FEDERAL SPECIFICATIONS

Where reference is made to the Standard Specifications of the American Society for Testing and Materials (A.S.T.M.): "United States Government Federal Specifications, or to other standard specifications of Associated Manufacturer's Organizations, or trades, in connection with the required quality of materials, methods, etc., then the applicable specifications shall be of the latest revised edition effective as of the date bids are opened by the Owner, unless otherwise expressly provided in the Contract Documents".

C-13 MANUFACTURER'S SPECIFICATIONS

The Contractor shall be responsible for any infringement of patents, royalties, or copyrights, which may be incurred thereby.

C-14 APPROVAL OF MATERIALS

A list of all materials, equipment, etc., together with manufacturer's drawings and catalog information shall be submitted to the Architect-Engineer for approval prior to ordering material or equipment but not later than forty-five (45) calendar days after receipt of Notice to Proceed to Mobilize on Site and Proceed with Construction. Information submitted shall show the capacity, operating conditions and all engineering data and descriptive information necessary for comparison and to enable the Architect-Engineer to determine whether same meets specifications. The Architect-Engineer's approval will not relieve the Contractor of the responsibility for performance of any terms of the Agreement.

If the submittals reflect any changes from the plans or specifications, these changes should be clearly indicated by the Contractor.

C-15 SUBSTITUTIONS

Substitutions for a specified system, product or material may be requested of the Architect-Engineer and the Architect-Engineer's written approval must be obtained before substitutions will be allowed. All requests for substitutions should be submitted within forty-five (45) days after award of Contract. Substitutions requested after this date may receive no consideration.

In making requests for substitutions the Contractor shall list the particular system, product, or material he wishes to substitute, the justification for such a request, and the amount he will add or deduct from the contract sum if the substitution is authorized by the Owner and approved by the Architect-Engineer.

If no addition or deduction to the Base Bid is allowed by the Contractor for such substitution, it shall be so stated on the request. Request submitted shall include any and all adjustments of that and any other work affected thereby.

C-16 CONSTRUCTION CLIMATE CONTROL

It shall be the responsibility of the Contractor to provide at his expense, the power, fuel and equipment necessary to maintain climatic conditions and humidity when specified, required for work in progress, or required to protect materials, finishes, equipment or systems installed until the final acceptance of the project by the Owner.

During the progress of the work, the Contractor shall require the plumbing, air conditioning, heating, ventilating, elevator, and electrical subcontractors to record on their field sets of drawings the exact locations, as installed, of all conduit, pipe and duct lines whether concealed or exposed which were not installed exactly as shown on the contract drawings. The Contractor shall also record all drawing revisions that have been authorized by change order that affect wall or partition locations, door and window locations and other template changes. The exact routing of conduit runs shall be shown on these drawings.

Contractor will provide two (2) CD-ROMs containing As-Built Drawings. Each CD shall contain one (1) set using AutoCAD 2006 (or newer), by Autodesk and one (1) set in PDF format. Each drawing shall be noted "As Built" and shall bear the date, name, and contact information of the subcontractors that performed the work. As-Built drawings shall include only information describing the as-built condition of the project and be clear of all additional information, including lines, shading, clouds, etc, that were not constructed and are not required to depict the as-built condition of the project.

The Contractor shall review the completed As-Built drawings and ascertain that all data furnished on the drawings are accurate and truly represent the work as actually installed. When manholes, boxes, underground conduits, plumbing, hot or chilled water lines, inverts, etc. are involved as part of the work, the Contractor shall furnish true elevations and locations, all properly referenced by using the original bench mark used for the institution or for this project. The CD-ROMS shall be submitted to the Architect-Engineer when completed, together with two sets of black-line prints for certification and forwarding to the Owner, at the time of final completion.

C-18 GUARANTEES AND OPERATING INSTRUCTIONS

All work performed by the Contractor in completing the subject project shall be guaranteed by the Contractor against all defects resulting from the use of materials, equipment and workmanship for a period of one year from the date of Substantial Completion of the project.

If, within any guarantee period, repairs or changes are required in connection with the guarantee work, which in the opinion of the Architect-Engineer is rendered necessary as a result of the use of materials, equipment or workmanship which are defective or inferior or not in accordance with the terms of the Contract, the Contractor shall, promptly upon receipt of notice from the Owner and without expense to the Owner, proceed to:

Place in satisfactory condition in every particular all of such guaranteed work, correct all defects therein and; make good all damages to the structure or site or equipment or contents thereof, which, in the opinion of the Architect-Engineer, is the result of the use of materials, equipment, or workmanship which are inferior, defective, or not in accordance with the terms of the Contract and; make good any work or materials or the equipment and contents of structures or site disturbed in fulfilling any such guarantee.

If the Contractor, after receipt of any such written notice, fails within seventy-two (72) hours to commence at the job site with performance of the work necessary to remedy all defects in the work described in such notice so as to provide the Owner with the subject project completed in accordance with all requirements of the Contract Documents, or fails to complete the performance of such remedial work within a reasonable time after commencing same, the Owner shall be entitled to have such

defective work remedied on the account of the Contractor and his Surety, in which event, the Contractor and his Surety shall be fully liable for all costs and expenses reasonably incurred by the Owner in having such defective work remedied.

The Contractor shall be responsible for collecting, identifying, indexing, and collating the following materials from the sub-contractors, and will deliver two (2) copies and three (3) electronic disk copies of the finished document to the Architect-Engineer for checking of correctness no later than the date of substantial completion of the project. Each copy will be indexed and ordered per example provided in the contracting workbook. Each hard copy will be bound in white D-ring binders of appropriate size.

Also, specific information regarding manufacturer's name and address, nearest distributor and service representative's name, address, office and home phone numbers, make and model numbers, operating design and characteristics, etc., will be required. All information submitted shall be updated to reflect existing conditions.

Subsequent to the time of Substantial Completion and receipt of As-Builts, Operations and Maintenance Books but prior to the date of Final Acceptance, the Contractor and/or subcontractor shall provide a competent and experienced person (or persons) thoroughly familiar with the work for a reasonable period of time to instruct the State Agency personnel in operation and maintenance of equipment and control systems.

This instruction will include normal start-up, run, stop, and emergency operations, location and operation of all controls, alarms and alarm systems, etc. The instruction will include tracing the system in the field and on the diagrams in the instruction booklets so that operating personnel will be thoroughly familiar with both the system and the data supplied.

C-33 CHANGES IN THE WORK, DELAYS & EXTENSIONS OF TIME, CLAIMS

CHANGES IN THE WORK

During the course of the Contractor's performance of the work necessary to complete the subject Project, certain events may occur which have the effect of changing the conditions under which the work is to be performed as specified and described in the Bidding Documents, and/or the nature and extent of the work as specified and described in the Bidding Documents. The occurrence of such events may cause the Contractor to incur greater or less cost and expense to perform the work required to complete the subject Project than planned to be incurred in the Contractor's successful bid, in which event the Contractor or the Owner shall respectively be entitled to either an increase or decrease in the Contract Sum, whichever is the case, to the extent such greater or less cost and expense results, and in which event the party entitled to the benefit of any such adjustment to the Contract Sum shall, within twenty-one (21) calendar days from the first occurrence of such event(s), present written demand on a Proposed Change Order Summary Form (Exhibit 16) therefore on the other party through the Owner. Should the Contractor and Owner be unable to settle and dispose of such demand within thirty (30) calendar days from the date any such claim is presented, upon terms and conditions mutually agreeable to the Contractor and the Owner, then such demand shall be referred to the Owner for determination, which determination shall be final and binding upon the Contractor, unless appealed in accordance with applicable provisions of the Contract Documents, and if the Owner, upon considering any such demand, determines that the

Contract Sum should be increased or decreased, the determination of the amount of any such increase or decrease in the Contract Sum shall be governed and controlled by strict adherence to the following described guidelines and limitations, and neither the Contractor or the Owner shall be entitled to receive any monetary consideration beyond that which is authorized herein below.

All adjustments to the Contract Sum resulting from a change in the work shall be determined by the measure of actual or estimated as the case may be, out-of-pocket costs and expenses incurred or spared by the Contractor for labor, materials, equipment, and equipment rental, plus overhead and profit thereon, for performing the changed work.

- A. Labor costs shall be inclusive of all direct job site cost for estimation, laying out, mechanics' wages and laborers' wages, together with all payroll taxes, payroll assessments, and insurance premiums paid for such labor.
- B. All material costs, equipment costs and equipment rental costs shall be trade discount rates, plus State Sales Tax, where applicable.
- C. Overhead and profit shall be inclusive of all project management, project administration, superintendence, project coordination, project scheduling and other administrative support functions and services, whether performed on the job site or off the job site and general support equipment. Overhead and profit shall be determined as follows:
 1. Overhead and profit shall be calculated at the rate of 15% of the Contractor's labor, material, equipment and equipment rental costs, incurred or spared, as measured under the preceding paragraphs for changes in the work performed by the officers, employees or subsidiaries of the Contractor.
 2. Overhead and profit shall be calculated at the rate of 7 1/2 percent of the Contractor's sub-contractors' actual labor, material, equipment and equipment rental costs, incurred or spared, as measured under the preceding paragraphs, plus 15% of all such costs, as overhead and profit to the Contractor's subcontractors, for all changes in the work performed by the officers, employees or subsidiaries of the Contractor's sub-contractors.
- D. In addition to the foregoing, all adjustments to the Contract Sum resulting from a change in the work shall include all out-of-pocket expenses, incurred or spared, in performing the changes in the work for:
 1. Paying the premiums required to obtain Performance Bonds and Labor and Material Payment Bonds called for by the Contract Documents;
 2. Paying the fee(s) required for licenses or permits called for by changes in the work;
 3. Paying for delivery of materials or equipment to the job site;
 4. Paying for storage of materials or equipment before use thereof in performing changes in the work, and
 5. Paying for testing required by the changes in the work.
- E. In the event Contractor demands an adjustment in the Contract Sum, such demand shall be accompanied by paid receipts or other such written evidence satisfactory to the Owner itemizing the costs and expenses incurred as a result of the event(s) constituting the changes in the work on a Proposed Change Order Summary Form (Exhibit 16).

DELAYS & EXTENSIONS OF TIME

Article 8.3.3 of the AIA General Conditions is not applicable and Contractor's remedies for delays in the progress of the Work, or for changes in the Work, shall be limited to those provided in this Section. The contractor's exclusive remedy for delays in performance of the contract caused by events beyond its control shall be a claim for equitable adjustment in the contract time; provided, however, inasmuch as the parties expressly agree that overhead cost incurred by Contractor for delays in performing the work cannot be determined with any degree of certainty, it is hereby agreed that in the event the Contractor is delayed in the progress of the Work after Notice to Proceed to Mobilize on Site and to Proceed with Construction for causes beyond its control and attributable only to acts or omissions of Owner, Contractor shall be entitled to compensation for overhead cost and profit either (a) as a fixed percentage of the actual cost of the change in the Work, if the delay results from a change in the Work, as calculated in Section C, "Conditions of the Contract", or (b) if the delay results from other than a change in the Work, at an amount for each day of delay calculated by dividing an amount equal to a percentage of the original contract sum determined on the graph enclosed as Exhibit 13 by the number of calendar days of the original contract time.

In the event of a change in the Work, Contractor's claim for adjustments in contract sum are limited exclusively to its actual costs for such changes plus fixed percentages for overhead, additional profit and bond costs, as specified in herein.

The forgoing remedies for delays and changes in the Work are to the exclusion of, and thus eliminate, the total cost concept [(that is, computing Contractor's additional costs for changes in Work or the costs of a delay in the progress of the Work by comparing Contractor's total actual costs with its original estimate, see McDevitt & Street Company v. Department of Management Services State of Florida, 377 So.2d 191, (Fla. 1st-DCA 1979)] as the method of determining Contractor's costs associated with a change in the Work or with delay in the progress of the Work.

No provision of this contract shall be construed as a waiver of sovereign immunity by the Owner.

CLAIMS AND DISPUTES

A Claim is a demand or assertion by one of the parties seeking, as a matter of right, adjustment or interpretation of Contract terms, payment of money and extension of time or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. Claims must be made by written notice. The responsibility to substantiate Claims shall rest with the party making the claim.

No provision of the Contract Documents makes or is intended to make provision for recovery by Contractor of damages for delay or for breach of contract. All claims, disputes or controversies under this contract shall be determined and settled as provided in Section C-39 hereinafter. No claim for breach of contract shall be submitted, determined or settled under Section C-39 hereinafter.

A. TIME LIMITS ON CLAIMS -- Claims by either party must be made within 21 days after occurrence of the event giving rise to such Claim or within 21 days after the claimant first recognizes the condition giving rise to the Claim, whichever is later. Claims must be made by written notice. An additional Claim made after the initial Claim has been implemented by Change Order will not be considered unless submitted in a timely manner.

B. CONTINUING CONTRACT PERFORMANCE --Pending final resolution of a Claim unless otherwise agreed in writing the Contractor shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract Documents.

C-34 PROGRESS PAYMENTS

A. Contractor should note that the Client Agency is the Agency that will occupy and use the project upon substantial completion, and that all or a portion of the funding for this project may have been appropriated by the State Legislature or furnished by Federal Grant to the Client Agency and that payment to the Contractor may be made by the Client Agency based on approval of each payment by the Owner.

Thirty (30) calendar days shall be allowed for the Owner's inspection and approval of the goods and services for which any Application for Payment is made.

The Owner will at intervals pay or cause to be paid to the Contractor as follows:

PAYMENTS TO CONTRACTOR

Pursuant to FS 255.073 and FS 215.422

B. Progress Payments against Contract Sum:

Based upon Application for Payment submitted to the Architect-Engineer by the Contractor and Certificates of Payment issued by the Architect-Engineer and accepted by the Owner, the Owner shall make progress payments to the Contractor against the account of the Contract Sum in accordance with the following:

Upon Owner's receipt and acceptance of a certificate of payment, the Owner has five (5) working days to inspect and approve the goods and services, unless otherwise specified herein. The Owner has twenty (20) days to deliver an approved request for payment to the Department of Financial Services. The twenty (20) days are measured from the latter of the date the invoice is received or the goods or services are received, inspected and approved.

The Owner shall pay, or cause to be paid to the Contractor, 90% of the portion of the contract sum properly allocable to labor, materials and equipment incorporated into the work, and 90% of that portion of the contract sum properly allocable to

materials and equipment suitably stored at the site or at a bonded warehouse agreed upon in writing by all parties, less the aggregate of previous payments. Ten percent (10%) retainage is held by Owner until work has been completed and all final documentation has been delivered satisfactorily to Project Manager.

If a payment is not available within forty (40) days; a separate interest penalty as established pursuant to Section 215.422, Florida Statutes, shall be due and payable, in addition to the invoice amount, to the Vendor. Interest penalties of less than one (1) dollar shall not be enforced unless the Vendor requests payment. Invoices which have to be returned to a Vendor because of Vendor preparation errors shall result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.

1. The Contractor shall promptly pay each Subcontractor in accordance with Section 287.0585, Florida Statutes, upon receipt of payment from the Owner out of the amount paid to the Contractor on account of such Subcontractor's Work, the amount to which said Subcontractor is entitled, reflecting the percentage actually retained, if any, from payments to the Contractor on account of such Subcontractor's work.
2. The Architect-Engineer may, on request at his discretion, furnish to a Subcontractor, if practical, information regarding the percentages of completion of the amount applied for by the Contractor and the action taken thereon by the Architect-Engineer on account of Work done by such Subcontractor.
3. Neither the Owner nor the Architect-Engineer shall have any obligation to pay or to see to the payment of any monies to any Subcontractor except as may otherwise be required by law.
4. No Certificate for a progress payment, nor any progress payment, nor any partial or entire use of occupancy of the project by the Owner, shall constitute an acceptance of any work not in accordance with the Contract Documents.

C. The Contractor shall request such compensation by submitting:

1. A properly completed Application for Progress Payment on the form FNG 4012E (Exhibit 10).
2. A properly completed Contractor's Minority Business Enterprises Status Report of Partial Payment (Exhibit 15). This form must be submitted even if no minorities were utilized.
3. A Schedule of Contract Values for FNG 4015E (Exhibit 11) as described below.

The Contractor shall, within ten (10) calendar days from date of Notice to Secure Permits letter, submit to the Architect-Engineer and Project Manager for review and approval three copies of a Schedule of Contract Values which will reflect the estimated cost of each subdivision of work of each specification section, further detailed by subcontractor item, and utilizing the Construction Specification's Institute "Master Format Broad Scope Section Numbers". The value of each

item shall include a true proportionate amount of the Contractor's overhead and profit. The sum of all such scheduled values shall equal the Contract Sum as evidenced by the Agreement.

The approved Schedule of Contract Values will accompany and support the Contractor's periodic Applications for Payment and shall indicate the value of suitably stored material as well as labor performed and materials incorporated into the work for each subdivision of the schedule during the period for which the requisition is prepared.

D-9 TEMPORARY FACILITIES (This needs to be added when it is a FARP project 10/3/14; revised January 2016)

The Florida Armory Revitalization Program (FARP) normally requires dislocation of the **Armory Full Time Staff (FTS)** in one of two ways: The FTS dislocates to a **Temporary Trailer or Building** located on the Armory property or they are dislocated to a **rental facility** away from the Armory.

The following will address the procedures to be followed when the FTS will be dislocated into a Temporary Trailer or Building on the Armory property.

1. All voice and data circuits and electronic devices will be totally relocated from the Armory into the Temporary facility normally located within 300 feet of the Armory.
2. Based on the following procedures, the General Contractor (GC) must prepare FARP bid documents to cover all expenses required to set up the Temporary facility to fully accommodate the reception of FLARNG Voice and Data services equal in quality as currently existing in the Armory. This will include all expenses to **initially establish** voice and data service into the Temporary facility and to **relocate** the same back into the Armory at the completion of the project.
3. Both moves will require close co-ordination between the **GC, G6, CFMO, and the Telephone Company.**
4. In preparation, the GC will contract a qualified IT vendor with **Registered Communication Distribution Designer (RCDD) certification** to assure that the following is completed **IAW G6 Standards, BICSI and NEC guidelines:**
5. Unless a conduit is already in place, **the GC will install a 2" PVC conduit, with pull string,** between the Telephone Company Cable Connection Point and the Temporary facility. There are two (2) issues to consider when installing the 2" conduit:
 1. If the existing Telephone Company (often referred to as the LEC, Local Exchange Carrier) Demarcation in the Armory is to be demolished and relocated in another part of the building, the GC will need to install the conduit between the Temporary Facility and the Telephone Company Service Cable Pedestal. This Pedestal is usually located somewhere around the Armory proper line. The Telephone Company usually prefers to install their own cable when they arrive on the site to activate the Service Order.
 2. If the TC Demarc in the Armory will not be disturbed during the renovation, the G6 Technician Team can handle the transfer of service to the Temporary Facility, providing the GC has properly completed all of the preparation requirements listed below:
 - A. In preparation, the GC will install the 2" Conduit between the TC Demarc in the Armory
 - B. Install the temporary service cables (copper and/or fiber) in the conduit. **Copper cables will be terminated in Building Entrance Protectors (BEP) fully populated with protector modules** and fiber cables in **12 port Fiber Distribution Panels (FDP) with LC connectors.** Minimum size of cables will be **6X24 DB Copper Telephone** and **6 fiber Tight Buffered, 50/125 Multi-Mode FOC.**
 - C. In the Temporary facility, install a 4' x 4' x 3/4" fire rated plywood Backboard (BB) in close proximity to a 120 volt, 20 AMP, AC duplex outlet (see drawing).
 - D. Prepare the BB with cable termination hardware, **BEP, FDP, CAT6 Patch Panels, Connecting Blocks, Grounding Bus Bar** etc. These components may be rack or wall mounted as required by quantity. If wall mounting is used, a shelf must be included to support the Electronics. **Ground all components.**
 - E. At least two (2) CAT6 cables must be installed between the CAT6 rated Patch Panel (PP) at the Backboard or Equipment Rack and each Wall Outlet.
 - F. RJ45 female jacks will be connected to both ends of the (2) CAT6 cables. One end will connect to the PP and the other at the Wall Outlet Faceplates.
6. When the Telephone Company must be hired to handle the transfer, G6 will initiate the Communications Service Authorization (CSA) to have them relocate their point of demarcation from the Armory to the Temporary facility. **G6 will need 45 days lead time to set up the transfer with Telephone Co.**
7. On the day of relocation, the following must be scheduled to take place at the same time:
 - A. The Telephone Company will disconnect service from the Armory and relocate the service by way of the temporary cables (copper and/or fiber) to the termination points on the BB. This will become their temporary point of demarcation. Upon completion, the T1 for Data/VOIP service and the Land Lines for Analog service will appear in the Temporary facility on the BEP and/or FDP.

B. G6 will schedule a Network and TeleCom Technician to be on site to relocate the Router and Network Switch from the Armory to the BB and re-establish network and voice connectivity.

C. A complete test will be performed by all responsible parties to verify that the Temporary voice and data service is fully established.

8. The same procedures will be followed at the completion of the project to relocate voice and data service back into the Armory.

9. When the Telephone Company is involved, there will be two (2) service transfers as much as 9 to 12 months apart. The Telephone Company will bill G6 for each service transfer. G6 will pay the bill and send CFMO documentation for total reimbursement of each transfer separately.
